FUNERAL GUIDELINES CARE SHEET

Dear Friends,

Many people are confronted the death of a family member or friend and find themselves overwhelmed by the decisions and arrangements that need to be made regarding a funeral service. The choices and decisions about funeral details may never have been discussed with you or made by you, leaving those who have to make these decisions unaware of your views, choices and preferences.

This *Funeral Guidelines Care Sheet* is offered as a means by which your thoughts, choices, preferences and wishes may be documented. It is intended to cover the various aspects of the funeral arrangements that will help your family and friends plan your funeral service.

This worksheet is for you to complete regarding your own choices for your funeral. **It is not a legal document**, and can be changed at any time. It is a guide for those you love who wish to plan your funeral service in a way that respects your wishes.

I encourage you to spend some time thinking about the details you might like to include in this worksheet. Talk about it with your family. It may raise questions that you will need to talk with others about. Upon completion, keep this worksheet in a safe place, review it regularly, and let others know where it can be found.

If you have any questions about this worksheet, or about death and funerals in general, please do not hesitate to contact me.
